PROPOSAL · OCTOBER 15, 2026

WEBSITE REDESIGN PROPOSAL

AJL PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
AJL Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

AJL gives honest advice, does neat work and answers an emergency line around the clock. The current website doesn't do that justice: it carries template text from other businesses, mixes up its phone numbers, and hides your best proof, the job photos.

We have already designed three working versions of a new ajlplumbingheating.com, built from AJL's own content. Each one turns visitors into booked calls and quotes, makes AJL easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR AJL Plumbing & Heating, Oneonta, NY

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS AJL
The footer shows the office number but dials the emergency line.	Customers reach the wrong line, and after-hours calls can look like office calls.
Template text from other companies: a UK "Gas Safe Registered" claim and another business's name on the oil-to-gas page.	Copy that isn't yours costs trust the moment a customer notices it.
No street address, owner name, license number or years in business. Review sites list a different town.	Customers and search engines can't confirm who and where AJL is.
Real job photos sit on a separate page with no captions.	Your strongest proof of quality isn't where customers decide.
Filler town pages, no FAQ, no structured data, and footer links to unrelated Long Island businesses.	Google and AI assistants get mixed signals and recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents AJL as a different kind of business, modeled on the best plumbing and heating websites in that part of the trade. All three use AJL's real services, history and contact details, and every one works on a phone. View them side by side here: AJL website preview.

VERSION	LEADS WITH	BEST IF AJL WANTS TO GROW	KEY FEATURE
1. Boiler Room	Otsego County's heating specialist: boilers, radiant heat, oil-to-gas	Boiler replacements, conversions and radiant heat	A 'What heats your home now?' picker with upgrade paths and real install photos
2. Night Line	The honest plumber who picks up, day or night	Emergency and service calls	A live office-hours switch that shows which number to call right now
3. Job Book	Neat, meticulous work, shown job by job	Larger residential jobs and water treatment	A filterable wall of AJL's own job photos and a well-water symptom picker

You can also mix them. For example, the Night Line hours switch can sit in the header of the Boiler Room site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version AJL picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who installs boilers and radiant heat near Oneonta?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR AJL
Search tools have to guess the business details, and filler town pages muddy them.	Services, hours, both phone lines and service area in the structured format search engines and AI tools read.	Google and AI assistants get AJL's facts directly and accurately.

TODAY	NEW SITE	WHAT IT MEANS FOR AJL
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from boiler emergencies to oil-to-gas to well water.	When someone asks, AJL has a clear answer ready to be quoted.
Copy borrowed from other businesses.	One consistent set of AJL facts everywhere.	Consistent businesses are easier for AI tools to trust and repeat.

No one can promise a ranking or a mention in an AI answer. What we can do is make AJL the easiest local plumbing and heating contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR AJL
Two numbers that are easy to mix up.	The right number for the time of day, labeled plainly, plus a short request: the problem, the town, then name and phone.	Customers reach the right line the first time.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: the heating system they have, an urgent problem, or the job they're planning.	Customers reach the right service in a tap.
Reviews are short and scattered.	Reviews about honesty and neat work placed where they help, with an easy way to leave a new one.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with AJL: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for AJL alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from AJL's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows other companies' wording and dials the wrong number from its footer. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction AJL picks, with your edits and any features you want to borrow from the other two.
- Request and call-back forms that send the customer's name, phone and details to your office.
- Every page built for phones first, with both phone lines one tap away.
- Search and AI-assistant setup, so Google and AI tools can read AJL's services, hours and answers.
- Clean-up of today's issues: the mixed-up phone link, borrowed template text and unrelated footer links.
- A job photo gallery with captions, and a reviews section linked to your profiles.
- A careers section for technician, assistant, customer service and dispatch roles.
- Launch on your existing domain, ajlplumbingheating.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, AJL goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** AJL picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your street address, license number, years in business, email, the towns you serve and which job photos to feature with you.

03 **Refine.** We adjust wording, colors and features until it feels like AJL.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new AJL site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, residential plumbing, boilers and radiant heat, water and wells, commercial, job gallery, about and careers, and contact.	$4,500
Launch offer: 10% off, for our first clients only	–$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like AJL.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your street address, license number, preferred email, the towns you serve, and tell us which job photos you're proudest of.

We'll start refining the version you choose as soon as we hear back.
