WEBSITE REDESIGN PROPOSAL

AMERICAN PLUMBING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
American Plumbing Mechanical & Maintenance Company, LLC	Operator	3 working versions

01 SUMMARY

SUMMARY.

American Plumbing has served East Baton Rouge and Ascension since 1989, led by master plumber Terry Smith, with residential, commercial and industrial work and annual backflow certification. The current website claims 24/7 service against weekday hours, gives three different year counts, and repeats its About page.

We have already designed three working versions of a new americanplumbingla.com, built from American Plumbing's own content. Each one turns visitors into service calls, backflow tests and commercial quotes, makes American Plumbing easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Terry Smith, American Plumbing, Baton Rouge, LA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS AMERICAN PLUMBING
'Available 24/7' on two pages, but the Contact page says weekdays 5 am to 5 pm.	Customers who call at night and get no answer stop trusting the site.
'35+ years', '30+ years' and 37 years on different pages.	Mixed numbers make a 1989 company look careless.
The same About page twice, one at a leftover 'empty-page' address.	Visitors and Google see duplicate pages instead of one clear story.
Location pages repeat claims like 'serviced thousands of properties' and well and septic work.	Unsupported claims are a risk, and the copy is identical town to town.
Broken backflow images, missing image descriptions and no FAQ markup.	Google and AI assistants can't read what American Plumbing does, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents American Plumbing as a different kind of business, modeled on the best plumbing and backflow websites in that part of the trade. All three use American Plumbing's real services, history and contact details, and every one works on a phone. View them side by side here: American Plumbing website preview.

VERSION	LEADS WITH	BEST IF AMERICAN PLUMBING WANTS TO GROW	KEY FEATURE
1. Master Plumber	Owner-run, licensed, since 1989	Residential repair and diagnostic calls	A multi-step service request that routes by town and ends with a review step
2. Backflow	Annual backflow testing, done and filed	Recurring backflow tests every year	A backflow test request with device details, photo upload and a review step
3. Commercial	Offices, warehouses and plants	Commercial and industrial contracts	A commercial request for quote with scope selection and file upload

You can also mix them. For example, the backflow test request can sit on the Master Plumber site, and the commercial quote form can be its own page.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version American Plumbing picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who does backflow testing near Baton Rouge, Louisiana?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR AMERICAN PLUMBING
Search tools find templated town pages with the same text.	One consistent set of facts: services, towns, licence and hours in the structured format search engines and AI tools read.	Google and AI assistants get American Plumbing's facts directly and accurately.
FAQ answers with no markup, and one says 24/7.	Plain-English answers to the questions customers ask, from slab leaks to backflow deadlines, matched to your real hours.	When someone asks, American Plumbing has a clear answer ready to be quoted.
Commercial and industrial work sits behind homeowner pages.	Residential, backflow, commercial and industrial each get their own clear section.	Plant and facility searches surface you, not just homeowner ones.

No one can promise a ranking or a mention in an AI answer. What we can do is make American Plumbing the easiest local plumbing contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR AMERICAN PLUMBING
A five-field form that doesn't say what happens next.	A short request on every version: the problem, the town, then name and phone. Each version adapts it to a home repair, a backflow test or a commercial quote.	Every web lead arrives with what the office needs to call back.
Two phone numbers with no guide to which one to call.	Each version shows the right number for the visitor's town.	Customers reach the right line the first time.
One testimonial on the home page.	Reviews placed where they help, with a Google review link.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with American Plumbing: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for American Plumbing alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from American Plumbing's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site promises 24/7 service and three different year counts. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction American Plumbing picks, with your edits and any features you want to borrow from the other two.
- Request forms that send the customer's problem, town, phone and details to your office.
- Every page built for phones first, with both numbers one tap away.
- Search and AI-assistant setup, so Google and AI tools can read American Plumbing's services, towns, licence and answers.
- Clean-up of today's issues: the 24/7 conflict, mixed year counts, duplicate About page, broken images and templated town pages.
- Residential, backflow certification, commercial and industrial sections.
- Launch on your existing domain, americanplumbingla.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, American Plumbing goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** American Plumbing picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your after-hours policy, whether Gonzales is a physical office, your title on the State Plumbing Board, which licence numbers to show, whether to say family-owned, your maintenance plans, which Facebook page is current, and your Google and BBB ratings with you.

03 **Refine.** We adjust wording, colors and features until it feels like American Plumbing.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new American Plumbing site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, residential plumbing, water heaters and leak detection, backflow testing, commercial and industrial, about, service area, and contact.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like American Plumbing.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your after-hours policy, details of any maintenance plans, a few commercial and industrial jobs you're proud of, and photos of the crew, trucks and jobs, including the ones already on your blog.

We'll start refining the version you choose as soon as we hear back.
