WEBSITE REDESIGN PROPOSAL

BIGGERSTAFF PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Biggerstaff Plumbing & Heating, Inc.	Operator	3 working versions

01 SUMMARY

SUMMARY.

Biggerstaff Plumbing & Heating has served Lincoln since 1957, when Keith and June Biggerstaff started it from their garage in Havelock; their sons Doug, Dennis and Don own it today. The current website publishes fair rates and real team photos, but mixes 24/7 with evenings and weekends, shows a stale 65-year banner, a dead Service Areas menu and image descriptions that name a funeral home and a litter box.

We have already designed three working versions of a new biggerstaffs.com, built from Biggerstaff's own content. Each one turns visitors into service calls, backflow tests, Service Contracts and replacement estimates, makes Biggerstaff easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR

Doug, Dennis and Don Biggerstaff, Biggerstaff Plumbing, Heating & Air Conditioning, Lincoln, NE

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS BIGGERSTAFF
The footer says 24/7 emergency service; the FAQ says evenings and weekends, with no after-hours rate.	Customers with no heat at night don't know what to expect when they call.
The banner says over 65 years; it has been 69 since 1957, and one page says third generation.	Small mismatches make careful customers doubt the rest.
'Licensed' and 'BBB-accredited' claims with no license numbers or BBB link.	Property managers and careful homeowners can't verify them.
The Service Areas menu is a dead link, and the towns you serve only appear in the FAQ.	People in Waverly, Eagle or Bennet can't tell if you come to them.
Image descriptions name a funeral home and a litter box, and there is no structured data or booking form.	Screen readers, Google and AI assistants describe the wrong things, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Biggerstaff as a different kind of business, modeled on the best plumbing, heating and air conditioning websites in that part of the trade. All three use Biggerstaff's real services, history and contact details, and every one works on a phone. View them side by side here: Biggerstaff website preview.

VERSION	LEADS WITH	BEST IF BIGGERSTAFF WANTS TO GROW	KEY FEATURE
1. Service	Know the price before the van arrives	Repair calls across Lincoln and Lancaster County	A multi-step service request with your published rates applied: issue, urgency, town, callback window, contact, review
2. Commercial	Plumbing and backflow for Lincoln buildings	Backflow tests, commercial plumbing and service contracts	A commercial service and backflow request: request type, property, device or issue details, site, file upload, contact, review
3. Family	The family that keeps Lincoln homes running	Service Contracts and heating and cooling replacements	Service Contract enrollment: home or business, equipment, address, first visit season and window, contact, review

You can also mix them. For example, the backflow request from Commercial can sit under a Commercial tab on the Family site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Biggerstaff picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who tests backflow preventers in Lincoln, Nebraska?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR BIGGERSTAFF
Search tools find a stale banner, conflicting emergency hours and mislabeled images.	One consistent set of facts: services, rates, hours, towns and credentials in the structured format search engines and AI tools read.	Google and AI assistants get Biggerstaff's facts directly and accurately.
Rates and answers buried on one FAQ page.	Plain-English answers on pricing, backflow testing, the Service Contract and the towns you serve, on the pages where people ask.	When someone asks, Biggerstaff has a clear answer ready to be quoted.
A Service Areas menu that goes nowhere.	Lincoln, Waverly, Eagle, Raymond, Denton, Roca, Bennet and Lancaster County built into the site's structure.	Biggerstaff shows up for searches in every town it serves.

No one can promise a ranking or a mention in an AI answer. What we can do is make Biggerstaff the easiest local plumbing, heating and air conditioning company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR BIGGERSTAFF
A four-field contact form with no service, town or address.	A short request on every version: what's wrong, how soon, the town, then name and phone. Each version adapts it to repairs, backflow tests or the Service Contract.	Every web lead arrives with what the office needs to call back.
The Service Contract is sold only by phone.	A clear page on what the contract covers and an online sign-up, so homeowners can join any time of day.	More customers on a plan, and spring and fall visits on the calendar.
Your published rates sit deep in the FAQ.	The $35 trip charge and $120 hourly rate shown where people decide, with free estimates on replacements.	More customers choose Biggerstaff before they call the next company.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with Biggerstaff: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Biggerstaff alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Biggerstaff's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site tells customers two different things about emergency service, shows a stale 65-year banner and hides your rates in the FAQ. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction Biggerstaff picks, with your edits and any features you want to borrow from the other two.
- Request forms that send the customer's name, phone, town, address and problem to your office, plus backflow and Service Contract requests.
- Every page built for phones first, with your number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Biggerstaff's services, rates, towns and answers.
- Clean-up of today's issues: the mixed emergency hours, the stale years banner, the dead Service Areas menu, wrong image descriptions and typos.
- Plumbing, heating and cooling, commercial, backflow and Service Contract sections.
- Launch on your existing domain, biggerstaffs.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Biggerstaff goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** Biggerstaff picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your legal and display name, Nebraska and City of Lincoln license numbers, BBB accreditation, whether emergency service is 24/7 and its rates, whether mileage is one way or round trip, Service Contract price and discount, financing lender and terms, incentive details, generation count and Google, Facebook and Angi ratings with you.

03 **Refine.** We adjust wording, colors and features until it feels like Biggerstaff.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Biggerstaff site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, plumbing, heating and cooling, commercial and backflow, Service Contract, pricing and FAQ, about and reviews, and contact, with a service request form.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Biggerstaff.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your license numbers, after-hours rates, Service Contract price, financing details, and photos of the shop on N 40th Street, the crew at work, commercial jobs and backflow tests.

We'll start refining the version you choose as soon as we hear back.
