WEBSITE REDESIGN PROPOSAL

BLACK'S HEAT & AIR. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Black's Heat & Air LLC	Operator	3 working versions

01 SUMMARY

SUMMARY.

Black's Heat & Air has been family owned since 1985, answers its phone 24/7 and publishes a 29-point inspection starting at $75. The current website uses two business names, lists no towns, has no photos or reviews and leaves after-hours service unclear.

We have already designed three working versions of a new blacksheatandairllc.com, built from Black's's own content. Each one turns visitors into service calls, inspections and system replacements, makes Black's easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Black's Heat & Air LLC, Morrison, TN

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS BLACK'S
The site uses two names: Black's Heat & Air LLC and Black's HVAC LLC.	Customers and search engines can't tell if they are the same company.
The address is Morrison, the title says McMinnville, and no towns are listed.	Customers outside McMinnville don't know if you come to them.
The phone line is 24/7 but office hours end at 2 PM, with no after-hours policy.	Someone with no heat at night can't tell if a call will bring a technician.
No photos, reviews or license number; the logo is the only image.	Customers comparing companies have nothing to trust you by.
No FAQ, no structured data, a dead 'More' menu and a few typos.	Google and AI assistants can't read what Black's does or where, so they recommend someone else.

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Black's as a different kind of business, modeled on the best heating and air websites in that part of the trade. All three use Black's's real services, history and contact details, and every one works on a phone. View them side by side here: Black's website preview.

VERSION	LEADS WITH	BEST IF BLACK'S WANTS TO GROW	KEY FEATURE
1. Service	Heat or air out? Your call is answered 24/7	Repair calls and emergency service	A step-by-step service request: problem, urgency, system, address, time window, contact, review
2. Inspection	29 points, starting at $75	Inspections that turn into repeat customers	A 29-point inspection booking: systems, property, last service, visit window, contact, review
3. Family	A Morrison family keeping McMinnville comfortable since 1985	System replacements for homes and businesses	A free replacement quote request: home or business, building size, current system, financing, contact, review

You can also mix them. For example, the 29-point checklist from Inspection can sit on the services page of the Family site.

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Black's picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who does HVAC repair near McMinnville, Tennessee?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR BLACK'S
Search tools see two names and one town in a page title.	One consistent set of facts: name, address, services, towns, phone and hours in the structured format search engines and AI tools read.	Google and AI assistants get Black's facts directly and accurately.
No FAQ anywhere on the site.	Plain answers to the questions customers ask, from inspection prices to after-hours calls to financing.	When someone asks, Black's has a clear answer ready to be quoted.
Your 29-point inspection is buried at the bottom of the Services page.	It gets its own section with the price and the full list, built into the site's structure.	What sets Black's apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Black's the easiest local heating and cooling company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR BLACK'S
A quote form that requires email but not a phone number.	A short request on every version: what's needed, the property, then name and phone. Each version adapts it to repair, inspection or replacement.	Every web lead arrives with what the office needs to call back.
Three pages and a 'More' menu that repeats them.	Each version starts from the customer's situation: something broke, it's time for a check-up, or the system is getting old.	Customers reach the right service in a tap.
No reviews anywhere.	Space for real reviews where they help, with a link to leave one.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Black's: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Black's alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Black's's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows two names, no towns and no photos, while customers compare you with companies that show all three. The new site fixes that from launch day.

WHAT’S INCLUDED.

- The finished site in the direction Black's picks, with your edits and any features you want to borrow from the other two.
- Service, inspection and quote requests that send the customer's name, phone, address and problem to your office.
- Every page built for phones first, with your 24/7 number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Black's services, towns, hours and answers.
- Clean-up of today's issues: the two names, missing towns, dead menu links and typos.
- Your 29-point checklist, family history, financing and air quality sections.
- Launch on your existing domain, blacksheatandairllc.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Black's goes straight to choosing and refining.

TIMELINE	About 3 weeks from approval, once we have your content and access

01 **Choose a direction.** Black's picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your legal name, the towns and counties you serve, whether emergency visits run after hours, your license number, your warranty and financing terms, the equipment you install and your Google rating with you.

03 **Refine.** We adjust wording, colors and features until it feels like Black's.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Black's site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). A focused 4 to 5 page site: home, repair and replacement, the 29-point inspection, about, and contact, with a service request form.	$2,500
Launch offer: 10% off, for our first clients only	–$250
Your price	**$2,250**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $4,750: $2,250 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$1,125 to start, $1,125 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01	Click through the three versions and tell us which one feels most like Black's.
02	Approve this proposal by replying to the email it came with, or by signing below.
03	Send us the towns you serve, your license number, warranty and financing terms, the family's names, and photos of the crew, trucks, the Morrison shop and recent installs.

We'll start refining the version you choose as soon as we hear back.
