WEBSITE REDESIGN PROPOSAL

BLOCK PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Block Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Block has served Owatonna since 1947, with a named master plumber, licenses on display and a 24-hour line. The current website undersells all of that: its address is wrong on every page, and unfinished template posts are live for anyone to find.

We have already designed three working versions of a new owatonnaplumbers.com, built from Block's own content. Each one turns visitors into calls and estimate requests, makes Block easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Block Plumbing & Heating, Owatonna, MN

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS BLOCK
The ZIP code on every page reads 5560 instead of a five-digit code, and other listings show a different street address.	Maps, Google and customers can't be sure where Block is.
Four blog posts are unfinished templates with placeholder titles, filler text and a stock author name, and they're listed for search engines.	Customers and search engines see a site that looks abandoned.
The home page repeats its services list and all five reviews.	It reads as a mistake and buries the call to action.
No about page, no service area beyond Owatonna and only one real photo.	Seventy-plus years in town is your biggest advantage, and the site barely says it.
No FAQ and no structured data.	Google and AI assistants can't read what Block does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Block as a different kind of business, modeled on the best plumbing and heating websites in that part of the trade. All three use Block's real services, history and contact details, and every one works on a phone. View them side by side here: Block website preview.

VERSION	LEADS WITH	BEST IF BLOCK WANTS TO GROW	KEY FEATURE
1. Shop Counter	The established shop with water heaters on the shelf	Water heater and repair calls	A water heater finder with a rebate paperwork checklist
2. Warm Floors	Boilers and in-floor heat for Minnesota winters	Boiler and in-floor heat projects	A room drawing with an in-floor heat switch for bathrooms, basements, garages and whole homes
3. Easy Access	Safer, easier bathrooms, from a company trusted since 1947	Accessible bathroom and remodel projects	A built-in text-size control and an accessible bathroom planner

You can also mix them. For example, the Warm Floors room tool can become the heating page of the Shop Counter site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Block picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who installs in-floor heat in Owatonna?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR BLOCK
Search tools read a wrong ZIP code and template blog posts.	Services, licenses, hours, the 24-hour line and a correct address in the structured format search engines and AI tools read.	Google and AI assistants get Block's facts directly and accurately.

TODAY	NEW SITE	WHAT IT MEANS FOR BLOCK
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from water heater rebates to in-floor heat to emergencies.	When someone asks, Block has a clear answer ready to be quoted.
Your strengths (since 1947, master plumber, licenses) are small print.	They lead the page and are built into the site's structure.	What sets Block apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Block the easiest local plumbing and heating contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR BLOCK
A basic contact form at the bottom of one page.	A short request on every version: the job, the town, then name and phone. Each version adapts it to water heaters, heating projects or bathroom upgrades.	Every web lead arrives with what the office needs to call back.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: a failed water heater, a cold floor, or a bathroom that's hard to use.	Customers reach the right service in a tap.
Five short reviews, shown twice.	Your best reviews placed where they help, with your existing Google review link.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Block: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Block alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Block's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows a broken ZIP code and unfinished template posts to anyone who finds it. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Block picks, with your edits and any features you want to borrow from the other two.
- Request and estimate forms that send the customer's name, phone and details to your office.
- Every page built for phones first, with the 24-hour number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Block's services, licenses and answers.
- Clean-up of today's issues: the ZIP code, duplicate home page content and unfinished blog posts.
- A reviews section linked to your Google profile.
- Launch on your existing domain, owatonnaplumbers.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Block goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Block picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your shop address and ZIP code, the towns you serve, your Google rating, and photos of the crew, trucks and finished jobs with you.
03	**Refine.** We adjust wording, colors and features until it feels like Block.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Block site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 7 pages: home, plumbing repair, water heaters and softeners, boilers and in-floor heat, accessible bathrooms, about, and contact.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Block.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your confirmed shop address, the towns you serve, and a few photos of the crew, trucks and finished jobs.

We’ll start refining the version you choose as soon as we hear back.
