WEBSITE REDESIGN PROPOSAL

C-AIRE HVAC & REFRIGERATION. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
C-Aire	Operator	3 working versions

01 SUMMARY

SUMMARY.

C-Aire is a family-owned Conway HVAC and commercial refrigeration company serving Horry, Georgetown, Florence and Sumter counties, with ice machine, walk-in, hood and make-up air work and maintenance agreements with priority service. The current website loads blank for search engines, so Google sees one page instead of 65.

We have already designed three working versions of a new cairesc.com, built from C-Aire's own content. Each one turns visitors into commercial service calls, home repairs and maintenance agreements, makes C-Aire easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR C-Aire HVAC and Commercial Refrigeration, Conway, SC

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS C-AIRE
The site loads blank for search engines, and every page points back to the home page.	Google treats your 65 pages as one, so your refrigeration and town pages don't show up.
Old page links are still in Google and lead to an empty page.	Customers who click them find nothing and call someone else.
'Over 20 years' on the site, while outside listings suggest longer.	You may be underselling your history.
Your website and BBB listing show different addresses.	Customers and search engines can't tell which one is right.
No readable reviews, photos, hours, email or license number.	Restaurant owners and homeowners have nothing to check before they call.

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents C-Aire as a different kind of business, modeled on the best HVAC and commercial refrigeration websites in that part of the trade. All three use C-Aire's real services, history and contact details, and every one works on a phone. View them side by side here: C-Aire website preview.

VERSION	LEADS WITH	BEST IF C-AIRE WANTS TO GROW	KEY FEATURE
1. Commercial	Refrigeration and kitchen air service for Grand Strand businesses	Restaurant, bar and grocery refrigeration work and commercial agreements	A commercial service request by equipment, with a data-plate photo upload and review step
2. Service	Two clear doors: home and business, booked the same way	Home AC and heat pump repairs, installations and business service calls	A multi-step visit request: home or business, system, need, town check, time window, contact, review
3. Maintenance	One agreement for cooling, heating and refrigeration	Maintenance agreements and the repair work that comes with them	A maintenance agreement builder: home or business, unit counts, condition, town, contact, review

You can also mix them. For example, the Maintenance agreement builder can sit on the Commercial site's maintenance contracts section.

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version C-Aire picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who repairs commercial ice machines near Myrtle Beach?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR C-AIRE
Search engines and AI tools see a blank page.	Every page's words are in the page itself, with one consistent set of facts: services, equipment, towns and contact details in the structured format search engines read.	Google and AI assistants get C-Aire's facts directly and accurately.
The FAQ page can't be read by search tools.	Plain-English answers to the questions customers ask, from ice machines to heat pumps to maintenance agreements.	When someone asks, C-Aire has a clear answer ready to be quoted.
Ice machines, walk-ins, hoods and make-up air are hidden behind JavaScript.	Each piece of equipment gets its own readable section and address.	The commercial work that sets C-Aire apart is what gets found.

No one can promise a ranking or a mention in an AI answer. What we can do is make C-Aire the easiest local HVAC and commercial refrigeration company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR C-AIRE
A request form that search tools and many visitors never see.	A short request on every version: what needs service, how urgent it is, the town, then name and phone. Each version adapts it to equipment, home or business, or a maintenance agreement.	Every web lead arrives with what the office needs to call back.
A long list of equipment pages with nothing to start from.	Each version starts from the visitor's situation: the unit that's down, home or business, or what they want maintained.	Customers reach the right service in a tap.
No reviews or photos anyone can read.	Reviews and real photos placed where they help, with a Google review link.	More reviews over time, where owners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with C-Aire: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for C-Aire alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from C-Aire's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site stays blank to search engines, a restaurant with a dead ice machine finds another company first. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction C-Aire picks, with your edits and any features you want to borrow from the other two.
- Service requests that send the customer's name, phone, equipment, town and problem to your office.
- Every page built for phones first, with 843-397-6568 one tap away.
- Search and AI-assistant setup, so Google and AI tools can read C-Aire's services, equipment, towns and answers.
- Clean-up of today's issues: pages search engines can read, old links redirected, one confirmed address, your real start year.
- HVAC, refrigeration, kitchen air, maintenance agreements, service area and careers sections.
- Launch on your existing domain, cairesc.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, C-Aire goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** C-Aire picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm the year C-Aire started, your current address, hours, after-hours policy, email address, SC mechanical license number, legal name, dealer brands, how far you travel, what a maintenance agreement includes, and your reviews with you.

03 **Refine.** We adjust wording, colors and features until it feels like C-Aire.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new C-Aire site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, home heating and air, commercial refrigeration and kitchen air, maintenance agreements, service area, about, and contact, with a service request form.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like C-Aire.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your start year, hours, email address, license number, what your maintenance agreements include, a few customer reviews, and photos of the vans, the shop, and techs on ice machines, walk-ins and rooftop units.

We'll start refining the version you choose as soon as we hear back.
