WEBSITE REDESIGN PROPOSAL

CHASE MECHANICAL. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Chase Mechanical	Operator	3 working versions

01 SUMMARY

SUMMARY.

Chase Mechanical has served home and business owners around Albuquerque since 2021, with heating, cooling, plumbing, water treatment and septic under one name and a 10-year parts warranty on new HVAC. The current website has no address, no license number, mismatched town lists and image descriptions copied from another company.

We have already designed three working versions of a new chaseabq.com, built from Chase's own content. Each one turns visitors into service calls, replacement estimates and commercial quotes, makes Chase easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Chase Mechanical, Albuquerque, NM

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS CHASE
No street address anywhere, only a map pin.	Customers and Google can't confirm where you are.
'Licensed, bonded and insured' with no license number.	Careful customers and property managers can't verify it.
The heating page mentions emergency repairs, but hours are weekdays 7:30 to 3:30.	Customers with no heat at night don't know if they can call.
Image descriptions name a tree service and show chainsaw captions.	Screen readers and search engines describe the wrong company.
Three different town lists, and no FAQ, About or structured data.	Google and AI assistants can't tell where you work or what you do, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Chase as a different kind of business, modeled on the best heating, cooling, plumbing and water quality websites in that part of the trade. All three use Chase's real services, history and contact details, and every one works on a phone. View them side by side here: Chase website preview.

VERSION	LEADS WITH	BEST IF CHASE WANTS TO GROW	KEY FEATURE
1. Service	One call for heating, cooling, plumbing and water	Repair calls and replacements across the metro	A multi-step service request: problem, home or business, town, time window, contact, review
2. Commercial	Mechanical work for the valley's small businesses	Commercial service plans and installs	A commercial quote request with building type, systems, site details and file upload
3. Comfort	Comfort and clean water for high-desert homes	Heat pump, zoning and water treatment installs	A free comfort and water estimate request: goals, current setup, home, visit window, contact, review

You can also mix them. For example, the commercial quote request can sit under a Commercial tab on the Service site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Chase picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who installs water softeners near Rio Rancho, New Mexico?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR CHASE
Search tools find taglines and stock photo captions, some naming another company.	One consistent set of facts: services, towns, warranty and hours in the structured format search engines and AI tools read.	Google and AI assistants get Chase's facts directly and accurately.
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from swamp coolers to softeners to commercial service.	When someone asks, Chase has a clear answer ready to be quoted.
Three different lists of the towns you serve.	One list of all eight towns, from Santa Fe to Belen, built into the site's structure.	Chase shows up for searches in every town it serves.

No one can promise a ranking or a mention in an AI answer. What we can do is make Chase the easiest local heating, cooling, plumbing and water quality company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR CHASE
One long form for every kind of job.	A short request on every version: the problem, home or business, the town, then name and phone. Each version adapts it to repairs, commercial quotes or upgrades.	Every web lead arrives with what the office needs to call back.
Services as long lists on four separate pages.	Each version starts from the customer's situation: what's broken, what building, or what they want to improve.	Customers reach the right service in a tap.
Warranty, discount and financing as small text.	Each one placed where it helps a decision, with clear terms once you confirm them.	More customers choose Chase over the next quote.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Chase: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Chase alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Chase's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site has no address, no license number and another company's name in its image descriptions. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Chase picks, with your edits and any features you want to borrow from the other two.
- Request forms that send the customer's name, phone, town, home or business and problem to your office.
- Every page built for phones first, with your number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Chase's services, towns, warranty and answers.
- Clean-up of today's issues: the missing address, mismatched town lists, wrong image descriptions and typos.
- Heating, cooling, plumbing, water quality and commercial sections.
- Launch on your existing domain, chaseabq.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Chase goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Chase picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your street address, New Mexico license number, legal name, owner details, after-hours policy, financing lender and terms, discount terms, HVAC brands and Google rating with you.
03	**Refine.** We adjust wording, colors and features until it feels like Chase.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Chase site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 7 pages: home, heating, cooling, plumbing, water quality, about and reviews, and contact, with a service request form.	$4,500
Launch offer: 10% off, for our first clients only	–$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Chase.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your address, license number, after-hours policy, financing details, and photos of the crew, vans, rooftop jobs and water system installs.

We'll start refining the version you choose as soon as we hear back.
