PROPOSAL · OCTOBER 15, 2026

WEBSITE REDESIGN PROPOSAL

COLONY PLUMBING, HEATING AND AIR. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Colony Plumbing, Heating and Air Conditioning	Operator	3 working versions

01 SUMMARY

SUMMARY.

Colony has served the Cedar Rapids and Iowa City area since 1973, with 24/7 repair, one-day replacements, geothermal, plumbing, a fireplace showroom and an engineered commercial division. The current website mixes '40+' and '50' years, leaves heating out of its booking form and links to a staging site.

We have already designed three working versions of a new colonyheating.com, built from Colony's own content. Each one turns visitors into service calls, replacement estimates and commercial bids, makes Colony easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Brian Miller, President, Colony Plumbing, Heating and Air Conditioning, Cedar Rapids, IA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS COLONY
'Over 50 years' on some pages and 'over 40+ years' on others.	Customers see two different stories about how long you've been around.
The schedule form has no heating, cooling or geothermal option.	Your core trade is the one thing customers can't book online.
Membership inclusions exist only inside a brochure image.	Phones and search engines can't read what each tier gives.
Canonical links, service cards and images point to a staging site.	Google can send visitors and credit to the wrong address.
Testimonials are undated, some from 2017, with no Google rating shown.	Strong recent reviews don't reach the people deciding who to call.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Colony as a different kind of business, modeled on the best heating, cooling, plumbing and fireplaces websites in that part of the trade. All three use Colony's real services, history and contact details, and every one works on a phone. View them side by side here: Colony website preview.

VERSION	LEADS WITH	BEST IF COLONY WANTS TO GROW	KEY FEATURE
1. Service	Heating, cooling and plumbing repair, 24/7	Repair calls, memberships and rental inspections	A multi-step service request: system, problem and urgency, town check, time window, contact, review
2. Replacement	A new system, most often installed in one day	Equipment replacements, geothermal and new-home systems	A replacement estimate request: what to replace, current system and age, home, priorities, contact, review
3. Commercial	Design, fabrication and service for Eastern Iowa buildings	Commercial projects, bids and service agreements	A commercial RFQ: request type, project, scope and timeline, file upload, contact, review

You can also mix them. For example, the Commercial RFQ form can sit on the business page of the Service site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Colony picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who installs geothermal heat pumps near Cedar Rapids, Iowa?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR COLONY
Search tools find mixed years, staging links and no business markup.	One consistent set of facts: services, towns, hours and history in the structured format search engines and AI tools read.	Google and AI assistants get Colony's facts directly and accurately.
Sixteen technical FAQs with no markup.	Plain-English answers to what customers ask, from 24/7 service to membership to commercial bids.	When someone asks, Colony has a clear answer ready to be quoted.
Geothermal and commercial engineering are buried in menus.	Each leads its own section and is built into the site's structure.	What sets Colony apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Colony the easiest local heating, cooling and plumbing contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR COLONY
One form for every kind of customer, without heating or cooling.	A request built for each visitor: a home repair, a replacement estimate, or a commercial bid with drawings.	Every web lead arrives with what the right department needs.
One long menu that flattens seven audiences.	Each version starts from the customer's job: fix it now, replace it, or build it.	Customers reach the right department in a tap.
Named staff scattered across service pages.	Consultants, estimators and managers shown with the years they joined.	Customers know who is coming and how long they've been there.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Colony: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Colony alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Colony's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site can't book a furnace repair online and points Google at a staging site. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Colony picks, with your edits and any features you want to borrow from the other two.
- Request forms that send the system, problem, address and contact details to the right department.
- Every page built for phones first, with the 24/7 number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Colony's services, towns, history and answers.
- Clean-up of today's issues: mixed years, staging links, the form without heating, and image descriptions.
- Membership, replacement, geothermal, commercial, fireplace and team sections.
- Launch on your existing domain, colonyheating.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Colony goes straight to choosing and refining.

TIMELINE	About 5 to 6 weeks from approval, once we have your content and access

01 **Choose a direction.** Colony picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your current Trane dealer tier, your Google rating, your Iowa license numbers and registered engineer, what each membership tier includes, your phone hours and current financing terms with you.

03 **Refine.** We adjust wording, colors and features until it feels like Colony.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Colony site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 12 pages: home, heating, cooling, plumbing, geothermal, fireplaces and showroom, membership, rental inspections, commercial, about, careers, and contact.	$6,000
Launch offer: 10% off, for our first clients only	–$600
Your price	**$5,400**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,900: $5,400 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,700 to start, $2,700 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01	Click through the three versions and tell us which one feels most like Colony.
02	Approve this proposal by replying to the email it came with, or by signing below.
03	Send us the membership tier details, your license numbers, current financing terms, and photos of the Shop on Wheels trucks, the showroom, the fabrication shop and recent jobs.

We'll start refining the version you choose as soon as we hear back.
