WEBSITE REDESIGN PROPOSAL

COMPLETE COMFORT HEATING, COOLING & REFRIGERATION. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Complete Comfort Heating, Cooling & Refrigeration	Operator	3 working versions

01 SUMMARY

SUMMARY.

Complete Comfort handles residential and commercial heating and cooling in Warren County, offers 24/7 commercial refrigeration service on all brands, and is an American Standard authorized dealer with EPA and NATE certified technicians. The current website gives two different answers for years in business, lists brands that conflict with its dealer status, and shows undated specials.

We have already designed three working versions of a new mcminnvilletnhvac.com, built from Complete Comfort's own content. Each one turns visitors into repair calls, refrigeration jobs and new system sales, makes Complete Comfort easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Complete Comfort Heating, Cooling & Refrigeration, McMinnville, TN

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS COMPLETE COMFORT
The home page says 'two decades' and the About page says 'over 15 years'.	Customers can't tell how long you've been in business, and the mismatch costs trust.
The home page lists five other brands while two pages say you are an American Standard authorized dealer.	Shoppers comparing systems don't know what you actually install.
Three specials marked 'limited time' with no dates.	Customers can't tell if the deals are still real.
No hours, email, license number, reviews or photos of your crew.	Customers comparing companies have little to trust you by.
No meta description, FAQ, structured data or image descriptions, and broken links on the Services and About slides.	Google and AI assistants can't read what Complete Comfort does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Complete Comfort as a different kind of business, modeled on the best heating, cooling and refrigeration websites in that part of the trade. All three use Complete Comfort's real services, history and contact details, and every one works on a phone. View them side by side here: Complete Comfort website preview.

VERSION	LEADS WITH	BEST IF COMPLETE COMFORT WANTS TO GROW	KEY FEATURE
1. Service	Heat or air out? Certified technicians, 24/7	Repair calls and tune-ups	A step-by-step service request: problem, urgency, property and system, address, time window, contact, review
2. Refrigeration	24/7 refrigeration service for Warren County businesses	Commercial refrigeration and HVAC work	A commercial equipment request: equipment, problem and impact, business, unit details with photo upload, contact, review
3. Replacement	A new American Standard system, at a price we'll beat	System replacements and new installs	A free replacement estimate request: what to replace, current system, home, priorities with quote upload, contact, review

You can also mix them. For example, the cooler and freezer request from Refrigeration can sit on a business page of the Service site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Complete Comfort picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who repairs walk-in coolers near McMinnville, Tennessee?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR COMPLETE COMFORT
Search tools find a page title and no description.	One consistent set of facts: name, address, services, refrigeration, county and phone in the structured format search engines and AI tools read.	Google and AI assistants get Complete Comfort's facts directly and accurately.
No FAQ anywhere on the site.	Plain answers to the questions customers ask, from 24/7 service to coolers and freezers to financing.	When someone asks, Complete Comfort has a clear answer ready to be quoted.
Your 24/7 commercial refrigeration is one paragraph on the Services page.	It gets its own section, built into the site's structure.	What sets Complete Comfort apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Complete Comfort the easiest local heating, cooling and refrigeration company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR COMPLETE COMFORT
A contact form with a picture puzzle and no way to say what's wrong.	A short request on every version: what's needed, the property or business, then name and phone. Each version adapts it to repair, refrigeration or a new system.	Every web lead arrives with what the office needs to call back.
Three pages that repeat the same specials.	Each version starts from the customer's situation: something broke, a cooler is failing, or the system is getting old.	Customers reach the right service in a tap.
No reviews anywhere.	Space for real reviews where they help, with a link to leave one.	More reviews over time, where customers look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with Complete Comfort: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Complete Comfort alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Complete Comfort's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site gives two answers for your years in business, lists brands you may not carry and shows offers nobody can date. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction Complete Comfort picks, with your edits and any features you want to borrow from the other two.
- Service, refrigeration and estimate requests that send the customer's name, phone, address and problem to your office.
- Every page built for phones first, with 931-743-9878 one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Complete Comfort's services, county and answers.
- Clean-up of today's issues: the conflicting years, mixed brand lists, undated offers, broken links and typos.
- Commercial refrigeration, American Standard, financing and offers sections.
- Launch on your existing domain, mcminnvilletnhvac.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Complete Comfort goes straight to choosing and refining.

TIMELINE	About 3 weeks from approval, once we have your content and access

01 **Choose a direction.** Complete Comfort picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your years in business, your legal name, the brands you sell and service, your current offers, your hours and after-hours number, an email address, your license number, the counties you serve, your financing terms and your Google rating with you.

03 **Refine.** We adjust wording, colors and features until it feels like Complete Comfort.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Complete Comfort site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). A focused 5 page site: home, heating and cooling, commercial refrigeration, about, and contact, with a service request form.	$3,000
Launch offer: 10% off, for our first clients only	–$300
Your price	**$2,700**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $5,200: $2,700 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$1,350 to start, $1,350 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01	Click through the three versions and tell us which one feels most like Complete Comfort.
02	Approve this proposal by replying to the email it came with, or by signing below.
03	Send us your founding year, hours, an email address, your license number, current offers, and photos of the crew, trucks, the Shellsford Road shop, recent installs and refrigeration jobs.

We'll start refining the version you choose as soon as we hear back.
