PROPOSAL · OCTOBER 15, 2026

WEBSITE REDESIGN PROPOSAL

CONTRAST MECHANICAL. A WEBSITE THAT BRINGS IN THE NEXT PROJECT.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Contrast Mechanical, Inc.	Operator	3 working versions

01 SUMMARY

SUMMARY.

Contrast Mechanical has built and serviced commercial mechanical systems in metro Detroit since 1996, with licensed master plumbers, certified welders and a $13 million high school contract. The current website shows two addresses, sends HVAC visitors to another company's site, and lists projects with no detail.

We have already designed three working versions of a new contrastmechanical.com, built from Contrast's own content. Each one turns visitors into bid invitations, maintenance agreements and project conversations, makes Contrast easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Contrast Mechanical, Inc., Macomb, MI

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS CONTRAST
Two different office addresses, one tied to Nexair Mechanical.	Contractors and inspectors can't be sure where you are.
The home page is one sentence and a phone number.	Visitors leave before they learn what Contrast does.
Projects are names and photos from 2015 with no scope, market or year.	Estimators can't judge whether you fit their job.
The HVAC menu sends visitors to Nexair Mechanical with no explanation.	Buyers can't tell who performs the work or who to call.
The contact form has no message field and no clear submit button.	Bid invitations and service requests never arrive.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Contrast as a different kind of business, modeled on the best commercial plumbing, piping, welding, insulation and mechanical service websites in that part of the trade. All three use Contrast's real services, history and contact details, and every one works on a phone. View them side by side here: Contrast website preview.

VERSION	LEADS WITH	BEST IF CONTRAST WANTS TO GROW	KEY FEATURE
1. Construction	Self-performed mechanical construction for schools and commercial buildings	Bid invitations from GCs, CMs and districts	An invitation to bid: project, bid date, scope, drawings upload, contact, review
2. Service	Boiler testing, backflow and planned maintenance for commercial buildings	Recurring maintenance agreements and service work	A maintenance agreement builder: building, equipment inventory, last test dates, services, contact, review
3. Family	A master plumber's company, run by the Bowers family since 1996	Direct project conversations and long-term clients	A talk-to-an-estimator request: project, stage, trades and size, contact preferences, review

You can also mix them. For example, the Service maintenance agreement builder can sit on its own page of the Construction site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Contrast picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Which mechanical contractor near Macomb, Michigan does CSD-1 boiler testing for schools?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR CONTRAST
Search tools find one sentence on the home page and a service area hidden in metadata.	One consistent set of facts: services, projects, leadership and location in the structured format search engines and AI tools read.	Google and AI assistants get Contrast's facts directly and accurately.
No FAQ anywhere on the site.	Plain answers to what contractors and facility managers ask, from certified welding to CSD-1 testing.	When someone asks, Contrast has a clear answer ready to be quoted.
The $13M Bloomfield contract is buried in a staff bio.	It leads the proof and the project list, alongside your certifications.	Your strongest proof is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Contrast the easiest local commercial mechanical contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR CONTRAST
A contact form with three fields and no message box.	A short, structured request on every version: a bid invitation with drawings, a maintenance inventory, or an estimator conversation.	Every web lead arrives with what Paul and the office need to respond.
Trades and service lines spread over thin pages.	Each version starts from the visitor's job: bidding a project, keeping a building running, or choosing who to work with.	Visitors reach the right capability in a tap.
Leadership bios on a page few visitors reach.	Your people, tenure and family history placed where buyers decide.	Contractors and owners see who stands behind the work.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Contrast: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Contrast alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Contrast's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every bid season the current site shows two addresses, a one-line home page and a form that may not send. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Contrast picks, with your edits and any features you want to borrow from the other two.
- Request forms that send the project, scope, files and contact details to your office.
- Every page built for phones first, with your number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Contrast's services, projects, leadership and answers.
- Clean-up of today's issues: the conflicting address, broken links, missing image descriptions and the contact form.
- Project, leadership, service line and careers sections.
- Launch on your existing domain, contrastmechanical.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Contrast goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Contrast picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your office address, office hours, Michigan license numbers, service area, how Contrast works with Nexair Mechanical and Northern Piping, project scopes and years, safety and bonding details, after-hours service and any open positions with you.
03	**Refine.** We adjust wording, colors and features until it feels like Contrast.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Contrast site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 10 pages: home, plumbing, HVAC and pipe fitting, welding, insulation, service and maintenance, projects, markets, company and leadership, and contact, with a bid invitation form.	$5,000
Launch offer: 10% off, for our first clients only	–$500
Your price	**$4,500**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,000: $4,500 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,250 to start, $2,250 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Contrast.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your license numbers, office hours, the counties you work in, scope and year for each project, newer project photos, and photos of crews, welding and boiler service work.

We'll start refining the version you choose as soon as we hear back.
