WEBSITE REDESIGN PROPOSAL

DENNY'S ROOFING. A WEBSITE THAT BOOKS THE INSPECTION.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Denny's Roofing, LLC	Operator	3 working versions

01 SUMMARY

SUMMARY.

Denny's Roofing is an owner-led Longmont roofing company. Denny Phillips inspects every job himself, 93% of the work comes from referrals, and the company handles insurance claims, Class 4 upgrades and commercial flat roofs across the Front Range and Western Slope. The current website gives three different workmanship warranties, shows reviews as images and has an empty gallery.

We have already designed three working versions of a new dennysroofing.com, built from Denny's's own content. Each one turns visitors into roof inspections and replacement jobs, makes Denny's easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Denny Phillips, Denny's Roofing, Longmont, CO

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS DENNY'S
The site promises a 5-year, a lifetime and a 15-year workmanship warranty on different pages.	Homeowners comparing bids can't tell what you actually guarantee.
The site lists 970-275-4012 while Google shows a different number.	Callers and search tools get mixed signals about how to reach you.
Reviews are screenshots, and your Google rating isn't shown.	Google can't read them and visitors can't search them, so your best proof goes unseen.
The gallery page has no project photos.	Homeowners and property managers can't see the roofs you've built.
No business or FAQ structured data, and almost no image descriptions.	Google and AI assistants can't read what Denny's does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Denny's as a different kind of business, modeled on the best roofing websites in that part of the trade. All three use Denny's's real services, history and contact details, and every one works on a phone. View them side by side here: Denny's website preview.

VERSION	LEADS WITH	BEST IF DENNY'S WANTS TO GROW	KEY FEATURE
1. Claims	Free inspections and help through the insurance claim	Roof inspections and insurance replacement jobs	A free inspection and claim request: what happened, storm date and claim status, property and town check, time window, contact, review
2. Replacement	An owner-led roof replacement, built to a published spec	Full roof replacements and Class 4 upgrades	A replacement estimate request: current roof, what you want, home and town, discounts, contact, review
3. Commercial	Flat roofs, HOAs and homes across the Front Range	Commercial, HOA and multifamily roofing	A commercial and HOA bid request: property and role, roof system, scope and timeline, site with file upload, contact, review

You can also mix them. For example, the Commercial bid request can sit on the HOA page of the Claims site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Denny's picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who can help with a hail damage roof claim near Longmont, Colorado?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR DENNY'S
Search tools find taglines in capital letters and little structure.	One consistent set of facts: services, 43 towns, address and phone in the structured format search engines and AI tools read.	Google and AI assistants get Denny's facts directly and accurately.
A 13-question FAQ with no markup.	Plain-English answers on deductibles, claim timing, Class 4 shingles and commercial roofs, marked up as FAQ.	When someone asks about a hail claim, Denny's has a clear answer ready to be quoted.
Reviews locked inside images.	Reviews as readable text, with the reviewer's name and source.	Your reputation becomes something search tools can see.

No one can promise a ranking or a mention in an AI answer. What we can do is make Denny's the easiest local roofing contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR DENNY'S
The same quote form repeated on every page.	One clear request on every version: what you need, your town, then name and phone. Each version adapts it to a storm claim, a replacement or a commercial bid.	Every web lead arrives with what Denny needs to call back.
A 20-step claim page and a 12-step start guide in long text.	Each version starts from the visitor's situation: a storm, a planned replacement, or a building to manage.	Visitors reach the right service in a tap.
All-caps headlines and repeated blocks on every page.	Calm, readable pages with one main action per section.	Homeowners trust what they can read easily.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Denny's: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Denny's alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Denny's's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every hail season, out-of-state crews knock on the same doors. Each day the current site gives three warranties and hides your reviews, a homeowner may pick someone else. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Denny picks, with your edits and any features you want to borrow from the other two.
- Inspection, estimate and bid requests that send the customer's name, phone, town and need to your office.
- Every page built for phones first, with your number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Denny's services, towns, claim answers and reviews.
- Clean-up of today's issues: the warranty conflict, phone mismatch, empty gallery, image-only reviews and typos.
- Claim process, roof systems, workmanship spec, commercial and HOA, discounts and service-area pages.
- Launch on your existing domain, dennysroofing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Denny's goes straight to choosing and refining.

TIMELINE	About 5 to 6 weeks from approval, once we have your content and access

01	**Choose a direction.** Denny's picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm one workmanship warranty statement, your hours, which phone number is primary, your founding year and roof count, your Malarkey Emerald Premium listing, license numbers, BBB details, financing and your Google rating with you.
03	**Refine.** We adjust wording, colors and features until it feels like Denny's.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Denny's site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 12 pages: home, insurance claims, storm damage, residential roofing, commercial and HOA roofing, roof systems, skylights, about, reviews, FAQ, service area, and contact.	$6,000
Launch offer: 10% off, for our first clients only	–$600
Your price	**$5,400**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,900: $5,400 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,700 to start, $2,700 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Denny's.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your workmanship warranty terms, your hours, photos of the crew, trucks and finished roofs, a list of commercial and HOA projects, and permission to quote your Google reviews.

We'll start refining the version you choose as soon as we hear back.
