WEBSITE REDESIGN PROPOSAL

ED'S ROOFING. A WEBSITE THAT BOOKS THE ESTIMATE.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Ed's Roofing, LLC	Operator	3 working versions

01 SUMMARY

SUMMARY.

Ed's Roofing has served Clark County from Brush Prairie since 1977, finishes most reroofs in one day and has won Best of Clark County eight times. The current website uses two business names, shows no license number, and gives conflicting payment information.

We have already designed three working versions of a new edsroofing.com, built from Ed's's own content. Each one turns visitors into reroof estimates, repair calls and skylight and gutter jobs, makes Ed's easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Ed's Roofing, LLC, Brush Prairie, WA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS ED'S
Two business names: Ed's Roofing, LLC and Ed's Economy Roofing LLC.	Customers and search engines can't tell if they are the same company.
No Washington contractor license number anywhere on the site.	Careful customers can't check you, and Washington expects it in advertising.
Text says cash and check only, while a graphic shows credit cards.	Customers don't know how they can pay before they call.
The Services menu links nowhere, a footer link is blank, and shingle brands appear on one page only.	Visitors miss services and brands you offer.
No FAQ, no structured data, keyword-stuffed image text and images crawlers can't see.	Google and AI assistants can't read what Ed's does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Ed's as a different kind of business, modeled on the best roofing websites in that part of the trade. All three use Ed's's real services, history and contact details, and every one works on a phone. View them side by side here: Ed's website preview.

VERSION	LEADS WITH	BEST IF ED'S WANTS TO GROW	KEY FEATURE
1. Reroof	A new roof, most often in one day	Full tear-offs and reroofs	A reroof planner: home, current roof, shingle brand and color, address and timing, contact, review
2. Family	Clark County's family roofer since 1977	Estimates from referrals and repeat customers	A free estimate request: service, property and town check, a time within office hours, contact, review
3. Repair	Leaks, storm damage and worn shingles, fixed	Repair calls that turn into reroofs	A roof check request: what you see, where and since when, property, town and photos, contact, review

You can also mix them. For example, the Repair roof check can sit on the repairs page of the Family site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Ed's picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who can reroof my house in Battle Ground, Washington?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR ED'S
Search tools see two business names and pages of generic text.	One consistent set of facts: name, services, towns, awards and hours in the structured format search engines and AI tools read.	Google and AI assistants get Ed's facts directly and accurately.

TODAY	NEW SITE	WHAT IT MEANS FOR ED'S
No FAQ anywhere on the site.	Plain answers to what customers ask, from how long a reroof takes to which shingle brands you install.	When someone asks, Ed's has a clear answer ready to be quoted.
Eight Best of Clark County awards shown only as images.	Awards, years and reviews written as text and built into the site's structure.	Your record is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Ed's the easiest local roofing contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR ED'S
A contact form that doesn't say what happens next.	A short request on every version: the job, the address and town, then name and phone. Each version adapts it to a reroof, a free estimate or a repair.	Every web lead arrives with what the office needs to call back.
A Services menu that goes nowhere.	Each version starts from the visitor's situation: an old roof, a trusted local name, or a problem to fix.	Customers reach the right service in a tap.
Fifteen pages of reviews nobody browses.	Dated reviews placed where they help, next to the work they describe.	Visitors see recent proof before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Ed's: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Ed's alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Ed's's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows two business names, no license number and mixed payment information to people choosing a roofer. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Ed's picks, with your edits and any features you want to borrow from the other two.
- Estimate and repair request forms that send the customer's name, phone, address and job to your office.
- Every page built for phones first, with 360-687-2963 one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Ed's services, towns, awards and answers.
- Clean-up of today's issues: the two names, missing license number, payment conflict and broken links.
- Services, shingle brands, awards, reviews and service-area sections.
- Launch on your existing domain, edsroofing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Ed's goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** Ed's picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your legal name, your WA contractor license number, what the second phone line is for, which payment methods you take, your workmanship and manufacturer warranty terms, BBB details, owner and crew names and roles, your after-hours policy and your Google rating with you.

03 **Refine.** We adjust wording, colors and features until it feels like Ed's.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Ed's site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, reroofing, shingles, repairs and storm damage, skylights and gutters, builders, about, and contact, with an estimate request.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Ed's.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your license number, warranty terms, payment methods, the names and roles of the people customers meet, and photos of the crew, trucks, shop and finished roofs.

We'll start refining the version you choose as soon as we hear back.
