WEBSITE REDESIGN PROPOSAL

FATHER AND SONS PLUMBING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Father and Sons Plumbing and Drain Cleaning, LLC	Operator	3 working versions

01 SUMMARY

SUMMARY.

Father and Sons is a family-owned, Illinois-licensed plumbing and sewer company in Willowbrook with a team of seven, 24/7 call or text, and published price ranges. The current website gives three different years in business, shows a second phone number and the wrong towns on its emergency page, and has no working contact form.

We have already designed three working versions of a new fatherandsonsplumbing.com, built from Father and Sons's own content. Each one turns visitors into service calls, sewer jobs and replacement estimates, makes Father and Sons easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Father and Sons Plumbing and Drain Cleaning, LLC, Willowbrook, IL

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS FATHER AND SONS
'Over a decade', 'over 20 years' and '30+ years' on different pages, with no founding year.	Customers can't tell which is true, so none of it counts.
The emergency page shows a second number and towns like Joliet and Tinley Park.	People outside your area call, and people inside it aren't sure which number to use.
The contact page has no visible form and no email address.	Customers who want to write first move on to someone else.
The reviews page is empty and the coupons are images with no terms.	Your best proof and your offers can't be read or trusted.
Duplicate service URLs, broken menu links and stock graphics in place of your own photos.	Google and AI assistants get mixed signals, and visitors see a template instead of your team.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Father and Sons as a different kind of business, modeled on the best plumbing and sewer websites in that part of the trade. All three use Father and Sons's real services, history and contact details, and every one works on a phone. View them side by side here: Father and Sons website preview.

VERSION	LEADS WITH	BEST IF FATHER AND SONS WANTS TO GROW	KEY FEATURE
1. Sewer	Sewer and drain repair, inspected first	Sewer inspections, repairs and replacements	A sewer and drain inspection request that asks about the home and line, then shows the matching price range on the review screen
2. Service	Call or text 24/7, priced in the open	Repair calls and water heater and sump replacements	A price-first service booking: pick the job and see its range, then urgency, town check, time, contact and review
3. Family	Paul, Elias and the team from Willowbrook	Estimates for sewer, water heater, pump and bathroom jobs	A free estimate request with optional photos, a town check and a review step

You can also mix them. For example, the price-first booking from Service can sit on the Family site, and the sewer inspection request can be its own page.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Father and Sons picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who does trenchless sewer repair near Willowbrook, Illinois?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR FATHER AND SONS
Search tools find conflicting years, two phone numbers and two different service areas.	One consistent set of facts: services, 12 towns, license, hours and phone in the structured format search engines and AI tools read.	Google and AI assistants get Father and Sons' facts directly and accurately.
No FAQ on the home page and an empty reviews page.	Plain-English answers about sewer work, water heaters, prices and towns, plus your real reviews.	When someone asks, Father and Sons has a clear answer ready to be quoted.
Your published price ranges sit halfway down one page.	They get their own section, tied to each service.	What sets you apart, the price before you start, is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Father and Sons the easiest local plumbing and sewer company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR FATHER AND SONS
A contact page that asks for details but shows no form.	A short request on every version: the job, the town, a time window, then name and phone. Each version adapts it to sewer work, service calls or estimates.	Every web lead arrives with what the office needs to call or text back.
Services spread across two URL trees and broken menu links.	Each version starts from the customer's situation: the problem, the price or the people.	Customers reach the right service in a tap.
Stock graphics and a cartoon placeholder in place of your team.	Your team photo, headshots and real sewer job photos used throughout.	Customers see who is coming before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with Father and Sons: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Father and Sons alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Father and Sons's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site sends emergency callers to a second number, lists towns you don't serve and gives three different answers on experience. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction you pick, with your edits and any features you want to borrow from the other two.
- Request forms that send the customer's job, town, time window, name and phone to your office.
- Every page built for phones first, with call or text one tap away.
- Search and AI-assistant setup, so Google and AI tools can read your services, towns, license and answers.
- Clean-up of today's issues: the conflicting years, the second number, the wrong towns, the missing form and the broken links.
- Team, price guide, sewer, emergency and service-area sections.
- Launch on your existing domain, fatherandsonsplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Father and Sons goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** Father and Sons picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm how long you've been in business, whether (630) 468-2380 is a separate emergency line, the story behind the name, an email address, your Google rating and review count, your financing provider and any current coupons with you.

03 **Refine.** We adjust wording, colors and features until it feels like Father and Sons.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Father and Sons site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 8 pages: home, sewer and drains, plumbing repair, water heaters and pumps, typical prices, about the family, service area, and contact.	$4,500
Launch offer: 10% off, for our first clients only	–$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01	Click through the three versions and tell us which one feels most like Father and Sons.
02	Approve this proposal by replying to the email it came with, or by signing below.
03	Send us your founding year, an email address, your Google review link, your financing details and current offers, plus photos of water heater, pump, bathroom and commercial jobs.

We'll start refining the version you choose as soon as we hear back.
