WEBSITE REDESIGN PROPOSAL

IZZY'S PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Izzy's Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Izzy's Plumbing & Heating has served Middlesex and Somerset counties since 2006, with three NJ licenses, certified Navien partner status, a fleet of branded vans and named Google reviews. The current website shows a phone number it doesn't dial, conflicting emergency hours and a contact form that never appears.

We have already designed three working versions of a new izzysplumbing.com, built from Izzy's's own content. Each one turns visitors into service calls, replacement estimates and repeat customers, makes Izzy's easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Izzy Moalam, Izzy's Plumbing & Heating, Middlesex, NJ

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS IZZY'S
877-FOR-IZZY is shown, but every link dials (732) 452-9600 and one page reads 877-452-9600.	Customers aren't sure which number to save or call.
The site promises 24/7 for AC and drains but posts Saturday emergency only and Sunday closed.	A homeowner with no heat on a Sunday can't tell if anyone will answer.
The contact page and services page say to fill out a form, but no form fields appear.	Visitors who don't want to call have nowhere to send a request.
Service pages use stock photos while 18 real job photos sit only in the gallery.	Your best proof of quality is hidden from the people deciding.
No structured data, nav labels pointing to the wrong page addresses, missing image descriptions and a placeholder email link.	Google and AI assistants can't read what Izzy's does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Izzy's as a different kind of business, modeled on the best plumbing, heating and cooling websites in that part of the trade. All three use Izzy's's real services, history and contact details, and every one works on a phone. View them side by side here: Izzy's website preview.

VERSION	LEADS WITH	BEST IF IZZY'S WANTS TO GROW	KEY FEATURE
1. Service	Plumbing, drains, heating and cooling, one call	Service calls and repairs across both counties	A multi-step service request with a town check and a review step
2. Replacement	Navien, boilers and full system installs	Boiler, water heater and HVAC replacements	A replacement estimate request with system, age, priorities, optional photo and a review step
3. Family	Family-owned in Middlesex since 2006	Trust-led service calls and repeat customers	A service-area checker that shows nearby work and starts a request

You can also mix them. For example, the Navien section from Replacement can sit inside the Service site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Izzy's picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who installs Navien combi boilers near Bridgewater, NJ?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR IZZY'S
Search tools find stock images, templated town pages and no structured data.	One consistent set of facts: services, towns, licenses, hours and phone in the structured format search engines and AI tools read.	Google and AI assistants get Izzy's facts directly and accurately.
FAQ split across seven pages, several with mixed-up addresses.	One clear FAQ on location, licenses, hours, towns, Navien, free estimates and commercial work.	When someone asks, Izzy's has a clear answer ready to be quoted.
Navien partner status sits on a page whose address reads bridgewater-nj-1.	Navien tankless and combi boiler work gets its own section and is built into the site's structure.	What sets Izzy's apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Izzy's the easiest local plumbing, heating and cooling company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR IZZY'S
A contact page that asks for a form that isn't there.	A short request on every version: the job, the town, a time window, then name and phone, with a review step.	Every web lead arrives with what the office needs to call back.
Three different ways the phone number is written.	One number, tap to call or text, in the header and a bar at the bottom of every phone screen.	Customers reach the office in a tap.
Real job photos and named reviews kept on separate pages.	Your own jobs and Google reviews placed next to the services they prove, with a link to your review profile once confirmed.	Visitors see the work before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Izzy's: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Izzy's alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Izzy's's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows a number it doesn't dial, conflicting emergency hours and a form that isn't there. The new site fixes that from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Izzy's picks, with your edits and any features you want to borrow from the other two.
- Service and estimate requests that send the customer's name, phone, job and town straight to the office, alongside your online booking.
- Every page built for phones first, with call and text one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Izzy's services, towns, licenses and answers.
- Clean-up of today's issues: the phone number mix-up, the 24/7 conflict, the missing form, mismatched page addresses, the placeholder email link and typos.
- Navien, maintenance plan, service area and about sections, with your real job photos in place of stock.
- Launch on your existing domain, izzysplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Izzy's goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Izzy's picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm whether 877-FOR-IZZY is a working number, your after-hours and Saturday emergency policy, your legal name, your Google rating and review count, your Navien partner tier, your maintenance plan terms, warranties and financing, and your logo colors with you.
03	**Refine.** We adjust wording, colors and features until it feels like Izzy's.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Izzy's site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 9 pages: home, plumbing and drains, heating and boilers, air conditioning, Navien water heaters and combi boilers, water treatment, about and our work, service area, and contact, with online booking.	$4,500
Launch offer: 10% off, for our first clients only	−$450
Your price	**$4,050**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $6,550: $4,050 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,025 to start, $2,025 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Izzy's.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your after-hours policy, maintenance plan terms, warranty wording, a photo of Alyana, and any new job, crew, truck and shop photos.

We'll start refining the version you choose as soon as we hear back.
