WEBSITE REDESIGN PROPOSAL

LOWDEN PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Lowden Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Lowden has served Eastern Iowa since 1953 from two offices, with a crew customers name in reviews and a well and farm specialty few competitors match. The current website mixes up its years in business, has no hours or email, and hides some services on pages no one can reach.

We have already designed three working versions of a new lowdenph.com, built from Lowden's own content. Each one turns visitors into service calls and plan sign-ups, makes Lowden easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Lowden Plumbing & Heating, Cedar Rapids and Lowden, IA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS LOWDEN
Years in business read 70, 71 and 'over 70' on different pages.	Mixed numbers make customers wonder which is true.
No hours and no email anywhere on the site.	Customers who want to check before calling move on.
Two phone numbers with no guidance on which office to call.	Callers reach the wrong office and get transferred.
Refrigeration and a new-customer offer live on pages missing from the menus.	Services customers want are invisible.
No FAQ and no structured data.	Google and AI assistants can't read what Lowden does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Lowden as a different kind of business, modeled on the best plumbing and HVAC websites in that part of the trade. All three use Lowden's real services, history and contact details, and every one works on a phone. View them side by side here: Lowden website preview.

VERSION	LEADS WITH	BEST IF LOWDEN WANTS TO GROW	KEY FEATURE
1. Town & Farm	Two offices, five counties, since 1953	Service calls across both offices	A town finder that shows the closest office and its number
2. Well & Ag	The well and farm water specialists	Well, pump and farm work	A well cross-section and water symptom picker
3. Comfort Club	Comfort, looked after every year	Maintenance plans and HVAC replacements	A maintenance plan builder and an offers wallet

You can also mix them. For example, the Comfort Club plan builder can sit on the HVAC page of the Town & Farm site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Lowden picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who repairs well pumps near Tipton, Iowa?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR LOWDEN
Search tools find conflicting years and two unlabeled numbers.	One consistent set of facts: services, both offices, towns and licenses in the structured format search engines and AI tools read.	Google and AI assistants get Lowden's facts directly and accurately.

TODAY	NEW SITE	WHAT IT MEANS FOR LOWDEN
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from well pumps to geothermal to the maintenance plan.	When someone asks, Lowden has a clear answer ready to be quoted.
Your farm and well specialty is one page deep.	It leads its own section and is built into the site's structure.	What sets Lowden apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Lowden the easiest local plumbing and HVAC contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR LOWDEN
A two-step form that asks for an address before the problem.	A short request on every version: the problem, the town, then name and phone. Each version adapts it to home service, well work or the plan.	Every web lead arrives with what the office needs to call back.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: their town, their water, or their comfort plan.	Customers reach the right service in a tap.
Twelve reviews in a static list.	Your best reviews placed where they help, with Google and Yelp review links.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Lowden: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Lowden alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Lowden's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows three different ages for the company and no hours to anyone who finds it. The new site fixes that from launch day.

WHAT’S INCLUDED.

- The finished site in the direction Lowden picks, with your edits and any features you want to borrow from the other two.
- Service request forms with photo upload that send the customer's name, phone and details to the right office.
- Every page built for phones first, with both office numbers one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Lowden's services, towns and answers.
- Clean-up of today's issues: the mixed years, orphan pages and missing hours.
- Crew, offers, maintenance plan, financing and careers sections.
- Launch on your existing domain, lowdenph.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Lowden goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Lowden picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your office hours, an email address, what your two license numbers cover, your offer dates, your Google rating and the company history with you.
03	**Refine.** We adjust wording, colors and features until it feels like Lowden.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Lowden site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 9 pages: home, plumbing, heating and cooling, geothermal, wells and agricultural, the protection plan and offers, two office pages, and contact.	$5,000
Launch offer: 10% off, for our first clients only	–$500
Your price	**$4,500**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,000: $4,500 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,250 to start, $2,250 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Lowden.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your office hours, an email address, your license details, current offers, and a few lines on the company's history since 1953.

We'll start refining the version you choose as soon as we hear back.
