WEBSITE REDESIGN PROPOSAL

PUGET SOUND PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Puget Sound Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Puget Sound answers 24/7 across three counties, charges no after-hours surcharge, publishes its license numbers and backs its biggest jobs with lifetime warranties. The current website buries those advantages under stock photos, two different town lists and a warranty page with no terms.

We have already designed three working versions of a new pugetsoundplumbing.com, built from Puget Sound's own content. Each one turns visitors into service calls and big-job quotes, makes Puget Sound easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Puget Sound Plumbing & Heating, Burien, WA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS PUGET SOUND
No after-hours surcharge is your best promise, and it sits deep in the FAQ.	Night and weekend callers never see why to call you first.
The lifetime warranty page doesn't say what 'lifetime' covers.	Homeowners comparing quotes can't weigh your best guarantee.
Stock photos, files like 'asdas.png' and images described only as 'image'.	The site looks generic, and search engines can't read the pictures.
The Service Areas page and the FAQ list different towns, and the license labels disagree.	Customers and search engines get mixed signals about where and how you're licensed.
34 FAQ answers with no structured data, and no email anywhere.	Google and AI assistants can't quote Puget Sound's answers, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Puget Sound as a different kind of business, modeled on the best plumbing and heating websites in that part of the trade. All three use Puget Sound's real services, history and contact details, and every one works on a phone. View them side by side here: Puget Sound website preview.

VERSION	LEADS WITH	BEST IF PUGET SOUND WANTS TO GROW	KEY FEATURE
1. Same Rate	The same price at 3 a.m. as at noon	Emergency and same-day service calls	A 24-hour dial that shows the same rate at every hour
2. Lifetime	Big jobs, backed for life	Water heaters, repipes and sewer replacements	A warranty finder with a card for each big job
3. Under Seattle	Fix the sewer, keep the yard	Sewer, trenchless and drain work	A street-to-house sewer cross-section with a dig or no-dig toggle

You can also mix them. For example, the Lifetime warranty finder can sit on the water heater page of the Same Rate site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Puget Sound picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Which Seattle plumber doesn't charge extra after hours?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR PUGET SOUND
Search tools find two town lists, mismatched license labels and no structured data.	One consistent set of facts: services, three counties, licenses and hours in the structured format search engines and AI tools read.	Google and AI assistants get Puget Sound's facts directly and accurately.

TODAY	NEW SITE	WHAT IT MEANS FOR PUGET SOUND
34 FAQ answers on one long page with no markup.	The same answers, marked up and placed next to the service each one is about.	When someone asks, Puget Sound has a clear answer ready to be quoted.
No surcharge, lifetime warranties and trenchless work are buried.	They lead their own sections and are built into the site's structure.	What sets Puget Sound apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Puget Sound the easiest local plumbing and heating company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR PUGET SOUND
A contact form with a nine-box checklist and only name and contacts.	A short request on every version: the problem, the town, then name and phone. Each version adapts it to emergencies, big-job quotes or sewer work.	Every web lead arrives with what dispatch needs to call back.
Visitors have to know which of dozens of pages their problem belongs on.	Each version starts from the customer's situation: what's happening now, the job they're planning, or the sewer line.	Customers reach the right service in a tap.
A review widget in the sidebar.	Your best reviews placed where they help, next to the service they're about, with a Google review link.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Puget Sound: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Puget Sound alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Puget Sound's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every night someone with a burst pipe lands on the current site and never sees that you charge the same at 3 a.m. The new site says it from launch day.

WHAT'S INCLUDED.

- The finished site in the direction Puget Sound picks, with your edits and any features you want to borrow from the other two.
- Service request forms that send the customer's name, phone, town and problem to dispatch.
- Every page built for phones first, with the 24/7 number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Puget Sound's services, area, licenses and answers.
- Clean-up of today's issues: the two town lists, license labels, stock images and missing image descriptions.
- Warranty, financing, coupon and careers sections.
- Launch on your existing domain, pugetsoundplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Puget Sound goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01 **Choose a direction.** Puget Sound picks one of the three versions, or a mix.

02 **Fill in the details.** We confirm your founding year, the exact warranty terms and exclusions, which license number covers what, an email address, your dispatch fee, and crew and truck photos with you.

03 **Refine.** We adjust wording, colors and features until it feels like Puget Sound.

04 **Connect.** Forms go to your office, and your Google listing is linked.

05 **Launch.** The new site goes live on your domain, checked page by page on phone and desktop.

06 **Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Puget Sound site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 9 pages: home, emergency plumbing, drains and sewer, trenchless repair, water heaters and repiping, warranties, service area, about and careers, and contact.	$5,000
Launch offer: 10% off, for our first clients only	–$500
Your price	**$4,500**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,000: $4,500 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,250 to start, $2,250 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01	Click through the three versions and tell us which one feels most like Puget Sound.
02	Approve this proposal by replying to the email it came with, or by signing below.
03	Send us your founding year, your warranty terms, an email address, current coupons, and photos of the crew, trucks and finished jobs.

We'll start refining the version you choose as soon as we hear back.
