WEBSITE REDESIGN PROPOSAL

ROWE'S PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Rowe's Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Rowe's has more than 23 years of good work and clear promises customers love: free estimates, same-day small jobs and real warranties. Today's website hides most of that, and parts of it are unfinished template pages anyone can see.

We have already designed three working versions of a new rowesplumbing.net, built from Rowe's's own content. Each one turns visitors into estimate requests and calls, makes Rowe's easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Rowe's Plumbing & Heating, Freeport, IL

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS ROWE'S
No street address, no hours, and empty directions links. The phone number is missing from the home and contact pages.	Customers who can't find how to reach you call someone else.
No estimate form. A half-built request page is live but not linked.	Anyone who can't call during the day has no way to reach you.
Unfinished template pages and twelve demo-store products (Watch, Sneakers, Pillow) are live and listed for search engines.	Search engines and customers see a business that looks unfinished.
An empty About page and no owner or founding year.	Your 23+ years and your reputation never come across.
No FAQ, no structured data, and no Google reviews link.	Google and AI assistants can't read what Rowe's does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Rowe's as a different kind of business, modeled on the best plumbing websites in that part of the trade. All three use Rowe's's real services, history and contact details, and every one works on a phone. View them side by side here: Rowe's website preview.

VERSION	LEADS WITH	BEST IF ROWE'S WANTS TO GROW	KEY FEATURE
1. Straight Answers	Free estimates, same-day small jobs, warranties in writing	Repair and install calls from homeowners who compare first	A job sorter that shows same-day versus about-two-days work, with the warranty card beside it
2. Freeze Line	Freeport's cold-weather plumber: frozen sewers, burst pipes, wet basements	Winter emergencies, sewer and sump work	A 'Where did the water stop?' checker that leads to the right service and a big call button
3. Soft Water	Water softeners, water heaters and fixtures, installed with a warranty	Water softener, water heater and fixture installs	A pipe-scale slider and a tank versus tankless chooser that end in a free estimate

You can also mix them. For example, the Freeze Line checker can become the winter page of the Straight Answers site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Rowe's picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who can thaw a frozen sewer line in Freeport?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR ROWE'S
Search tools have to guess the business details from page text, and they find demo-store pages too.	Services, license, location and contact details in the structured format search engines and AI tools read, with leftover pages removed.	Google and AI assistants get Rowe's facts directly and accurately.
A FAQ page full of empty "Title or question" stubs.	Plain-English answers to real questions, from frozen sewers to water softeners to warranties.	When someone asks, Rowe's has a clear answer ready to be quoted.
Your strengths (license, warranties, same-day small jobs) are scattered.	They lead the page and are built into the site's structure.	What sets Rowe's apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Rowe's the easiest local plumber for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR ROWE'S
Phone calls only, and the number is hard to find.	Tap-to-call everywhere, plus a short request: the job, the town, then name and phone. Each version adapts it to estimates, urgent calls or upgrades.	Every web lead arrives with a name and number, even after hours.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: a job to price, water that stopped, or an upgrade to plan.	Customers reach the right service in a tap.
Testimonials are scattered one per page.	Reviews collected where they build trust, with an easy way to leave a new one on Google.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Rowe's: new services, town pages or seasonal offers.

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Rowe's alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Rowe's's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Right now, search engines can see unfinished pages and demo products on rowesplumbing.net, and customers can't find your address or a form. The new site fixes that from launch day.

WHAT’S INCLUDED.

- The finished site in the direction Rowe's picks, with your edits and any features you want to borrow from the other two.
- Free estimate and call-back forms that send the customer's name, phone and details to you.
- Every page built for phones first, with the phone number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Rowe's services, license and answers.
- Clean-up of today's issues: the empty About and FAQ pages, template code and demo-store pages.
- A reviews section linked to your Google profile.
- Launch on your existing domain, rowesplumbing.net.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Rowe's goes straight to choosing and refining.

TIMELINE	About 3 weeks from approval, once we have your content and access

01	**Choose a direction.** Rowe's picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your street address, hours, email, towns served, which heating services you offer, and photos of the crew, trucks and finished jobs with you.
03	**Refine.** We adjust wording, colors and features until it feels like Rowe's.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor’s website before they call. The new Rowe's site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). A focused 6 page site: home, plumbing repair, sewer and drains, water heaters and softeners, about and reviews, and contact, with a free estimate form.	$3,000
Launch offer: 10% off, for our first clients only	–$300
Your price	**$2,700**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $5,200: $2,700 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$1,350 to start, $1,350 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Rowe's.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your street address, hours, preferred email, the towns you serve, and a few photos of the crew, trucks and finished jobs.

We'll start refining the version you choose as soon as we hear back.
