WEBSITE REDESIGN PROPOSAL

STEBBINS PLUMBING & HEATING. A WEBSITE FOR THE NEXT HUNDRED YEARS.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Stebbins Plumbing & Heating	Operator	3 working versions

01 SUMMARY

SUMMARY.

Stebbins has served the Dayton area since 1926 and celebrated its hundredth year with the city in 2026. The current website still says 'nearly 100 years', has placeholder text on its centennial page, and mixes staff pages into the customer menu.

We have already designed three working versions of a new stebbinsplumbing.com, built from Stebbins's own content. Each one turns visitors into service calls, backflow tests and bids, makes Stebbins easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Bruce Stebbins, Stebbins Plumbing & Heating, West Carrollton, OH

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS STEBBINS
'Celebrating nearly 100 years' in the year you turned 100.	Your biggest milestone reads as out of date.
The centennial page has placeholder text and '#STAYTUNED'.	The page meant to celebrate you looks unfinished.
Hours read 7:30 on the home page and 8:00 elsewhere.	Customers aren't sure when to call.
Employee benefits, sponsor drawings and member sign-in sit in the customer menu.	Customers dig past staff pages to find a service.
No FAQ, map, reviews or structured data, and a broken Dayton PHCC link.	Google and AI assistants can't read what Stebbins does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Stebbins as a different kind of business, modeled on the best plumbing websites in that part of the trade. All three use Stebbins's real services, history and contact details, and every one works on a phone. View them side by side here: Stebbins website preview.

VERSION	LEADS WITH	BEST IF STEBBINS WANTS TO GROW	KEY FEATURE
1. A Century	The Dayton area's 100-year family plumber	Service calls from the name people know	A copper pipe timeline from 1926 to 2026
2. Text Us	The neighborhood crew you can text	Small repair and water heater jobs	A text composer that writes the message for the customer
3. Backflow & Bids	Built, tested, signed off	Backflow testing and commercial bids	A backflow test and bid request builder

You can also mix them. For example, the Text Us composer can sit in the header of the A Century site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Stebbins picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who tests backflow preventers near West Carrollton, Ohio?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR STEBBINS
Search tools find mixed hours, placeholder text and no structured data.	One consistent set of facts: services, hours, area and history in the structured format search engines and AI tools read.	Google and AI assistants get Stebbins's facts directly and accurately.
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from water heaters to backflow tests.	When someone asks, Stebbins has a clear answer ready to be quoted.

TODAY	NEW SITE	WHAT IT MEANS FOR STEBBINS
The centennial and backflow program are hard to find.	They lead their own sections and are built into the site's structure.	What sets Stebbins apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Stebbins the easiest local plumbing company for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR STEBBINS
A quote form, with the text line easy to miss.	A short request on every version: the job, the street, then name and phone. Each version adapts it to service, texting or backflow and bids.	Every web lead arrives with what the office needs to call back.
Customer and staff pages mixed in one menu.	Each version starts from the customer's situation: a name to trust, a quick fix, or a test or bid.	Customers reach the right service in a tap.
No reviews or Google link anywhere.	A reviews section ready for your Google reviews, with a link to leave one.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.
- **Made to last.** Clean, standard code that can grow with Stebbins: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every

Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Stebbins alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Stebbins's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.
- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. This is your centennial year, and every visitor to the current site sees 'nearly 100' and placeholder text. The new site celebrates it properly.

WHAT'S INCLUDED.

- The finished site in the direction Stebbins picks, with your edits and any features you want to borrow from the other two.
- Quote, text and backflow request forms that reach your office.
- Every page built for phones first, with call and text one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Stebbins's services, area and answers.
- Clean-up of today's issues: the stale centennial line, placeholder text, mixed hours, broken links and staff pages in the customer menu.
- History, crew, sponsorships and pay-online sections.
- Launch on your existing domain, stebbinsplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Stebbins goes straight to choosing and refining.

TIMELINE	About 3 weeks from approval, once we have your content and access

01	**Choose a direction.** Stebbins picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your hours, your license numbers, whether you offer heating service, how many generations to name, the Ohio House resolution, and a business-domain email with you.
03	**Refine.** We adjust wording, colors and features until it feels like Stebbins.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Stebbins site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). A focused 6 page site: home, plumbing service, water heaters, backflow testing, commercial construction, and contact, with a text line and online bill pay.	$3,000
Launch offer: 10% off, for our first clients only	–$300
Your price	**$2,700**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $5,200: $2,700 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$1,350 to start, $1,350 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Stebbins.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your hours, license numbers, whether you offer heating work, a few lines on the family history, and photos of the shop, trucks and the centennial.

We'll start refining the version you choose as soon as we hear back.
