WEBSITE REDESIGN PROPOSAL

STONEBERGER PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
H.L. Stoneberger Plumbing & Heating, Inc.	Operator	3 working versions

01 SUMMARY

SUMMARY.

Stoneberger has served the Harrisburg capital region since 1986 as a family company, with real commercial work, four licenses and 24/7 emergency service. The current website hides most of that: its project galleries are empty, two emergency numbers disagree, and its counters show zero.

We have already designed three working versions of a new hlstonebergerplumbing.com, built from Stoneberger's own content. Each one turns visitors into service calls and quote requests, makes Stoneberger easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR H.L. Stoneberger Plumbing & Heating, Inc., Mechanicsburg, PA

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS STONEBERGER
Two emergency numbers: the header shows one, the footer and contact pages show another.	Customers with an emergency can't be sure which line to call.
The Past Projects page and home gallery are empty, and the About page counters show 0.	The site looks broken right where it should show your work.
Named work for Hotel Hershey, Patient First and Verizon is buried in one paragraph.	Your strongest proof never reaches homeowners or facility managers.
Copy says 25, 30 and 'more than 30' years, and the copyright reads 2019.	Mixed signals make a 40-year company look out of date.
No FAQ, no reviews, no structured data, and old page links.	Google and AI assistants can't read what Stoneberger does or where, so they recommend someone else.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Stoneberger as a different kind of business, modeled on the best plumbing and HVAC websites in that part of the trade. All three use Stoneberger's real services, history and contact details, and every one works on a phone. View them side by side here: Stoneberger website preview.

VERSION	LEADS WITH	BEST IF STONEBERGER WANTS TO GROW	KEY FEATURE
1. Both Banks	The capital region's family plumbing and HVAC company since 1986	Homeowner service calls across the region	A Susquehanna map with 17 tappable towns that pre-fills a service request
2. Known Work	Plumbing and HVAC for the buildings you know	Commercial, underground and sewer lateral work	A filterable ledger of named projects and a below-the-slab process strip
3. Four Seasons	Heat in winter, cool in summer, hot water always	Tune-ups, water heaters and HVAC replacements	A Winter, Summer and Year-round switch that reorders services and offers

You can also mix them. For example, the Known Work project ledger can become the commercial page of the Both Banks site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Stoneberger picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who repairs sewer laterals near Mechanicsburg?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR STONEBERGER
Search tools find conflicting phone numbers, hours and years in business.	One consistent set of facts: services, towns, licenses and contact details in the structured format search engines and AI tools read.	Google and AI assistants get Stoneberger's facts directly and accurately.
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from sewer laterals to heat pumps to emergencies.	When someone asks, Stoneberger has a clear answer ready to be quoted.
Your strengths (since 1986, named commercial work, licenses) are scattered.	They lead the page and are built into the site's structure.	What sets Stoneberger apart is what gets surfaced.

No one can promise a ranking or a mention in an AI answer. What we can do is make Stoneberger the easiest local plumbing and HVAC contractor for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR STONEBERGER
Long forms with a captcha and an all-US state list.	A short request: the job, the town, then name and phone. Each version adapts it to home service, commercial proposals or seasonal offers.	Every web lead arrives with what the office needs to call back.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: their town, their building, or the season.	Customers reach the right service in a tap.
No reviews anywhere.	A reviews section linked to your Google profile, ready from launch.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with Stoneberger: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Stoneberger alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Stoneberger's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Every day the current site shows empty galleries, zero counters and two different emergency numbers to anyone who finds it. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction Stoneberger picks, with your edits and any features you want to borrow from the other two.
- Service, quote and proposal request forms that send the customer's name, phone and details to your office.
- Every page built for phones first, with the office and after-hours lines one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Stoneberger's services, towns, licenses and answers.
- Clean-up of today's issues: the conflicting numbers and hours, empty galleries and counters, and old page links.
- Offers with full terms, a careers section, and a reviews section linked to your Google profile.
- Launch on your existing domain, hlstonebergerplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Stoneberger goes straight to choosing and refining.

TIMELINE	About 4 weeks from approval, once we have your content and access

01	**Choose a direction.** Stoneberger picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm which number is your after-hours line, your office hours, what each license number covers, an email address, your Google reviews, and photos of the crew, trucks and named projects with you.
03	**Refine.** We adjust wording, colors and features until it feels like Stoneberger.
04	**Connect.** Forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Stoneberger site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). About 9 pages: home, plumbing, heating and cooling, sewer laterals, commercial projects, offers, service towns, about and careers, and contact.	$5,000
Launch offer: 10% off, for our first clients only	–$500
Your price	**$4,500**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $7,000: $4,500 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$2,250 to start, $2,250 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Stoneberger.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your after-hours number, office hours, an email address, your Google review link, and photos of the crew, trucks and named commercial projects.

We'll start refining the version you choose as soon as we hear back.
