WEBSITE REDESIGN PROPOSAL

WILLENBORG PLUMBING & HEATING. A WEBSITE THAT BOOKS THE JOB.

PREPARED FOR	PREPARED BY	LIVE PREVIEW
Willenborg Plumbing & Heating, Inc.	Operator	3 working versions

01 SUMMARY

SUMMARY.

Willenborg has served Dubuque since 1972. The website doesn't show that yet: there is no way to send a request, no reviews, and nothing that sets Willenborg apart from any other template plumber.

We have already designed three working versions of a new willenborgplumbing.com, built from Willenborg's own content. Each one turns visitors into booked jobs and bids, makes Willenborg easy for Google and AI assistants to recommend, and works on a phone as well as on a computer. You choose the direction that fits, and we take it to launch.

PREPARED FOR Willenborg Plumbing & Heating, Inc., 1010 Cedar Cross Road, Dubuque, IA 52003

02 WHERE TODAY'S SITE FALLS SHORT

WHERE TODAY'S SITE FALLS SHORT.

The current site has the right basics, but it loses customers before they call. We reviewed every page. These are the issues that matter most.

ISSUE	WHAT IT COSTS WILLENBORG
The contact page asks visitors to use a form, but no form appears. Every call to action is a phone call.	Anyone who can't call during work hours has no way to reach you, so the job goes to someone else.
No reviews on the site, though Google shows a 4.4 rating.	Homeowners choose contractors on reviews. In a 2024 ACHR News survey, 91% said they rely on them.
No founding year, no owner names, no license details, and only stock photos.	More than fifty years in Dubuque is your biggest advantage, and the site never says it.
The Water Heaters menu link goes nowhere, image tiles show empty placeholders, and leftover builder text appears on the page.	Small breaks make a business look neglected and cost trust.
No FAQ, no towns beyond Dubuque and Peosta, no structured data, no image descriptions.	Google and AI assistants can't read what Willenborg does or where, so they recommend someone else.

Source for the review figure: ACHR News, Sept 2024.

03 THREE DIRECTIONS TO CHOOSE FROM

THREE DIRECTIONS TO CHOOSE FROM.

Each version presents Willenborg as a different kind of business, modeled on the best plumbing websites in that part of the trade. All three use Willenborg's real services, history and contact details, and every one works on a phone. View them side by side here: Willenborg website preview.

VERSION	LEADS WITH	BEST IF WILLENBORG WANTS TO GROW	KEY FEATURE
1. Hometown Ticket	Dubuque's repair plumber, one tap from a service ticket	Repair, drain and water heater calls from homeowners	A carbon-copy style service ticket that fills in as the customer taps their problem
2. Reroute	The remodeling plumber for kitchens, baths and businesses	Kitchen, bath and commercial remodel work	A tap-to-move floor plan that turns a remodel idea into a written scope
3. Ground Up	The plumbing contractor for new homes and business facilities	New construction and commercial projects with builders	A build-phase track with a cross-section drawing and a bid request form

You can also mix them. For example, the Reroute planner can become the remodeling page of the Hometown Ticket site.

04 WHY THE NEW SITE WORKS BETTER

WHY THE NEW SITE WORKS BETTER.

Every change answers a problem on the current site, and all of it comes with whichever version Willenborg picks.

A Found and recommended by Google and AI assistants

More customers now ask an AI assistant, or read Google's AI answer, before they call anyone: "Who's a good plumber in Dubuque who can put in a sump pump?" Those tools recommend businesses whose facts they can read and check. The new site is built to be read.

TODAY	NEW SITE	WHAT IT MEANS FOR WILLENBORG
Search tools have to guess the business details from page text.	Services, hours, service area, founding year and contact details, described in the structured format search engines and AI tools read.	Google and AI assistants get Willenborg's facts directly and accurately.
No FAQ anywhere on the site.	Plain-English answers to the questions customers ask, from sump pumps to water heaters to commercial work.	When someone asks, Willenborg has a clear answer ready to be quoted.
Hours, area and services are scattered or missing.	One consistent set of facts on every page.	Consistent businesses are easier for AI tools to trust and repeat.

No one can promise a ranking or a mention in an AI answer. What we can do is make Willenborg the easiest local plumber for search engines and AI tools to read, verify and recommend.

B Easier for customers, and for the office

TODAY	NEW SITE	WHAT IT MEANS FOR WILLENBORG
No way to send a request.	A short request flow: the problem, the town, the best time to call, then name and phone. Each version adapts it to repairs, remodel scopes or construction bids.	Every web lead arrives with a name and number, even after hours.
Visitors have to know which page their problem belongs on.	Each version starts from the customer's situation: a slow drain, a remodel, or a building project.	Customers reach the right service in a tap.
No reviews on the site.	Google review excerpts and an easy way to leave a new one.	More reviews over time, where homeowners look before they call.

C Built to a high standard

- **Phone first.** Designed for the phone, then the computer, with call and request always within reach of a thumb.
- **Fast and accessible.** Lightweight pages that load quickly on a weak cell signal, with clear headings and labeled forms that work for every customer and every search tool.

- **Made to last.** Clean, standard code that can grow with Willenborg: new services, town pages or seasonal offers.

05 WHY OPERATOR

WHY OPERATOR.

Most small-business sites are page-builder templates that an agency sets up and leaves. They look dated within a few years, load slowly on phones, and were never built for AI search. Every Operator site is designed and coded for one business. You also see the work before you commit: three working versions already exist.

WHAT YOU GET	TYPICAL AGENCY TEMPLATE SITE	OPERATOR
Design	A template shared with other businesses	Designed for Willenborg alone
Build	A CMS page builder stacked with plugins	Custom code, nothing extra to load
Speed	Heavy scripts that drag on a phone	Fast on a weak cell signal
AI search	Not considered	Built in from day one
Local SEO	Generic page structure	Structured for local search and every service
Phones	A desktop layout squeezed down	Designed for the phone first
Upkeep	Plugin updates and security patches	No plugins to patch

- **Custom design.** Built from Willenborg's trade, customers and history, with one consistent brand, look and voice on every page.
- **Custom code.** Hand-built, lightweight pages with no page builder and nothing slowing them down.
- **Optimized for AI and AI search.** Structured facts and quotable answers that Google and AI assistants can read, check and recommend.
- **Better SEO and information architecture.** Organized around the customer's problem, with real headings and service content laid out the way search engines read local businesses.

- **Modern UI for 2027 and beyond.** A phone-first interface with the polish customers expect from the apps they use every day.

Waiting has a cost too. Today, a customer who can't call during working hours has no way to reach Willenborg from the website. The new site fixes that from launch day.

06 WHAT'S INCLUDED

WHAT'S INCLUDED.

- The finished site in the direction Willenborg picks, with your edits and any features you want to borrow from the other two.
- Request and bid forms that send the customer's name, phone and details to your office.
- Every page built for phones first, with the phone number one tap away.
- Search and AI-assistant setup, so Google and AI tools can read Willenborg's services, hours and answers.
- Clean-up of today's issues: the dead Water Heaters link, empty image tiles and missing form.
- A reviews section linked to your Google profile.
- Launch on your existing domain, willenborgplumbing.com.
- First 2 months of support after launch, included: bug fixes, launch help and small corrections.

HOW IT WORKS.

Because the design is already done, Willenborg goes straight to choosing and refining.

TIMELINE	About 3 weeks from approval, once we have your content and access

01	**Choose a direction.** Willenborg picks one of the three versions, or a mix.
02	**Fill in the details.** We confirm your founding year, Iowa license number, after-hours policy, email, towns served and photos of the crew and trucks with you.
03	**Refine.** We adjust wording, colors and features until it feels like Willenborg.
04	**Connect.** Requests and bid forms go to your office, and your Google listing is linked.
05	**Launch.** The new site goes live on your domain, checked page by page on phone and desktop.
06	**Support.** The first two months after launch are included. After that, choose Operator Care at $250 a month, or a full handoff of the site, code and domain.

INVESTMENT.

Most customers look at a contractor's website before they call. The new Willenborg site is designed to make that look easy: clear services, real proof and a simple way to reach you. One fixed price, no long contract, and you own everything.

ITEM	PRICE
Website design, build and launch (one time). A focused 6 page site: home, repairs and drains, sump pumps and water heaters, remodeling, new construction with a bid request, and contact.	$3,000
Launch offer: 10% off, for our first clients only	–$300
Your price	**$2,700**
Support for the first two months after launch (Launch offer)	Included

+ After the first two months: optional Operator Care, or handoff

Care is optional and month to month. If you would rather run the site yourself, we hand over the site, its code and your domain after the first two months. Either way they stay in your name, and hosting and domain are billed at cost in your own accounts.

PLAN	WHAT IT COVERS	MONTHLY
Operator Care	Hosting management, form and uptime checks, fixes and small text updates. No unlimited changes; larger work is quoted first.	$250

If you keep care after the first two months, year one totals $5,200: $2,700 for the site plus $2,500 for ten months of care, with hosting and domain at cost on top. New pages and larger changes are quoted separately.

PAYMENT TERMS	$1,350 to start, $1,350 before launch
VALID UNTIL	November 30, 2026

NEXT STEPS.

01 Click through the three versions and tell us which one feels most like Willenborg.

02 Approve this proposal by replying to the email it came with, or by signing below.

03 Send us your license number, preferred email, towns you serve, any after-hours policy and a few photos of the crew, trucks and finished jobs.

We'll start refining the version you choose as soon as we hear back.
